

NOTES

- We travel with a Soundcraft Ui24R mixer that we use to mix individual IEMs for all players except guitarist
- We can pass a direct split signal of all channels from our mixer to FOH
- We travel with our own wireless handheld mics and drum mics. We can also use house mics if preferred
- The singer will use a vocal FX stomp box (which he will bring)
- If we run direct to FOH, the bassist, guitarist and keys player each have personal DIs

INPUTS

| Input | Source | Input | Source | Input | Source |
|-------|----------------------|-------|----------------------|-------|--------------|
| 1 | Vox mic: Lead Singer | 9 | Drum mic: kick | 17 | DI: Drum pad |
